Felderstein, Felderstein Fitzgerald Willoughby & Pascuzzi LLP (monitoring counsel representing CalPERS) Program: Curtis Ishii (INVO)	CalPERS is an investor (6.33% equity investment) in and lender (\$3.2 million term loan) to Amcast Automotive of Indiana, Inc. The investments were made through CalPERS' investment manager, Highland Capital. Amcast filed for Chapter 11 bankruptcy protection. General Motors has sued CalPERS and other lenders to Amcast. As to CalPERS' investment, General Motors seeks to subordinate CalPERS' secured loan to the claims of the unsecured creditors and to have CalPERS' security interest set aside, effectively resulting in no recovery on the loan. General Motors also alleges that CalPERS and the other lenders intentionally interfered with General Motors' contract with Amcast and used their control over Amcast to force it to repudiate the contract. General Motors seeks to collect damages from the defendants resulting from such conduct. CalPERS has obtained an agreement for defense and indemnity from Highland Capital, under its contractual arrangement with Highland, to the extent the court awards any damages to General Motors on its cause of action for intentional interference with contract.
